

COBRA Mobile Center

Staying connected while you're away...
Benefits your whole company!

HAVE IT YOUR WAY!

COBRA MOBILE Runs with or without today's wireless, broadband technology

- **Eliminate wasted down time**—At day's end, send each Worker's next day Job Assignments to them—this saves them from having to drive into the office the next day and wait around for instructions.
- **Smooth out your office work flow**—by receiving each Worker's job hours & materials from the field daily, you eliminate the once-a-week "surge" of information that can bury you.
- **Improve customer response time**—No need to tell your customer "I'll get back to you in a few days" when you have the very latest job information from the field available in your office COBRA.
- **Reduce trips to and from the office**, supply shops, job sites—saves gas, mileage & maintenance costs.
- **Email information** to Customers, Vendors & Workers directly from Mobile Center—Saves time.
- **Import Labor Hours to Payroll without seeing Pay Information** (requires COBRA Payroll program).
- **Supports unlimited # of Field Users** who can exchange data with office (additional licenses required).
- **Allows full use of all COBRA programs in the field** or Control a Users access by setting Permissions.
